Thankyou for the opportunity to comment.

Our views are as follows,

We submit that BreakoDay and Dorset should be combined to make a larger more appropriate Council. It should be centred in Scottsdale with St Helens being reduced to an outpost. Break o Day Council has never represented its constituents rather opting to support Buisness through the Chamber of Commerce. Had the Council been egalitarian and defended the Environment then I would have supported a different scenario. As it stands they don't represent either the Environment or the Ratepayers ,so it would be probably no worse ran from Scottsdale.

For those reasons of failure and corruption we support the Proposed Amalgamations.

We are aware that Council has employed a recently settled person being Sheridan Van Asch as a consultant to support the status quo! In no way does this person represent the views of the wider Break O Day community, quite the reverse!

Cheers,

Bill Manning
