Comments on The Future of Local Government – Southern Shore Community Catchment Information Pack – Review stage 3

While I freely admit I have virtually no experience in the workings of Local Government the impression such as I have gleaned from the media is that there can be a disproportionate amount of time and money in some LGA bodies wasted on political infighting and self-interests. Whichever of the three scenarios presented is able to reduce those issues to a minimum would work for me. Having said that either of Scenarios 2 or 3 appeal to me most and specifically which of those would present the least financial burden on our ratepayers while maintaining high efficiency/productivity.

Kind regards
